

CompTIA.

A+ Core 2

Exam 220-1202

A+ 220-1202

Module 12

Configuring Windows

Prepare for A+ Core 2 by:

- Configuring Windows user settings
- Configuring Windows system settings

Lesson 12.1

Windows User Settings

Windows Interfaces (Slide 1 of 3)

Windows 10 Desktop

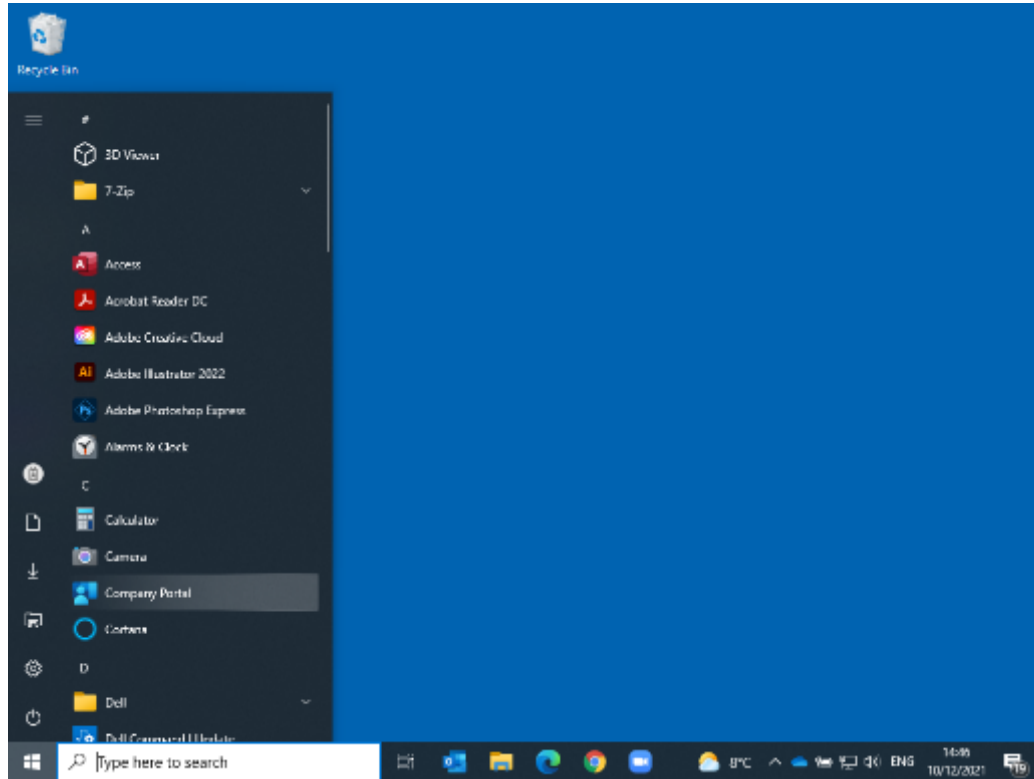

- Start button is bottom left on taskbar

Windows 11 Desktop

- Start button is center on taskbar

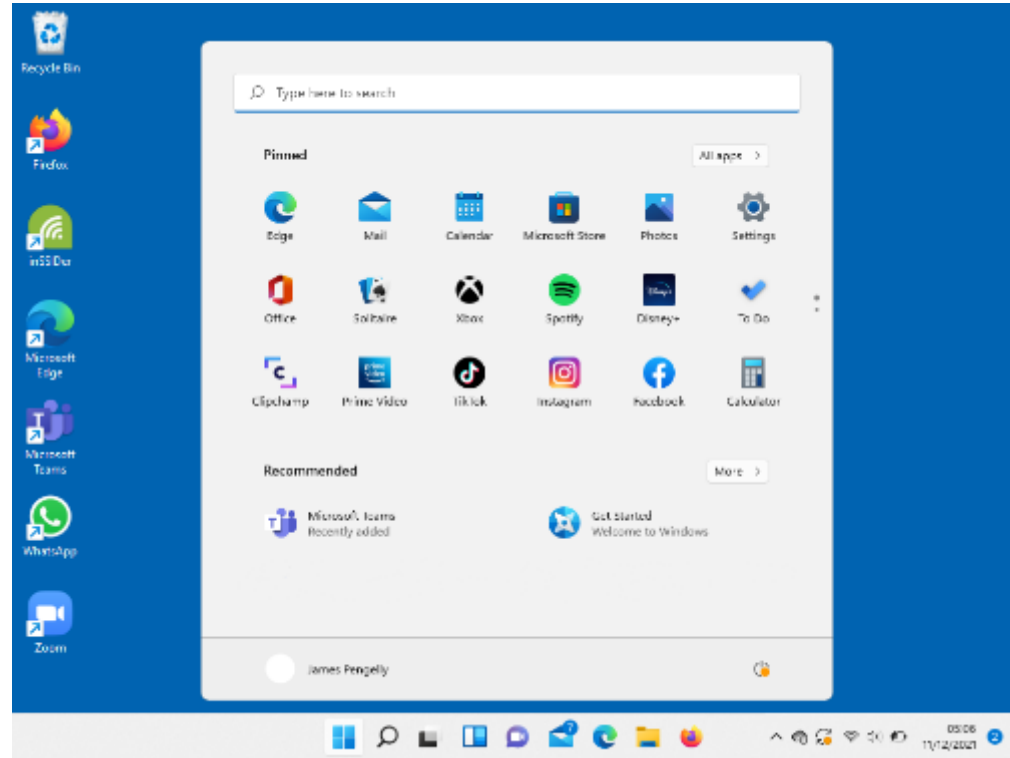

Taskbar search in both OS versions

Windows Interfaces (Slide 2 of 3)

Screenshot courtesy of Microsoft.

Windows Interfaces (Slide 3 of 3)

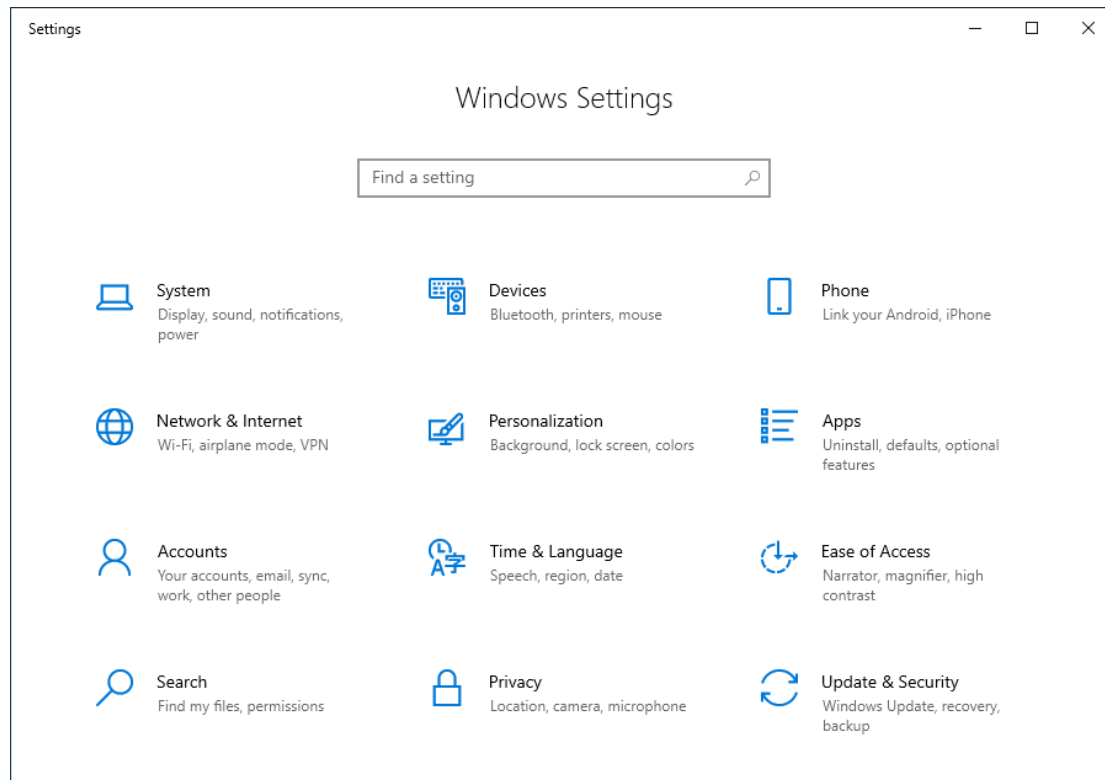

Screenshot courtesy of Microsoft.

Windows Settings and Control Panel (Slide 1 of 4)

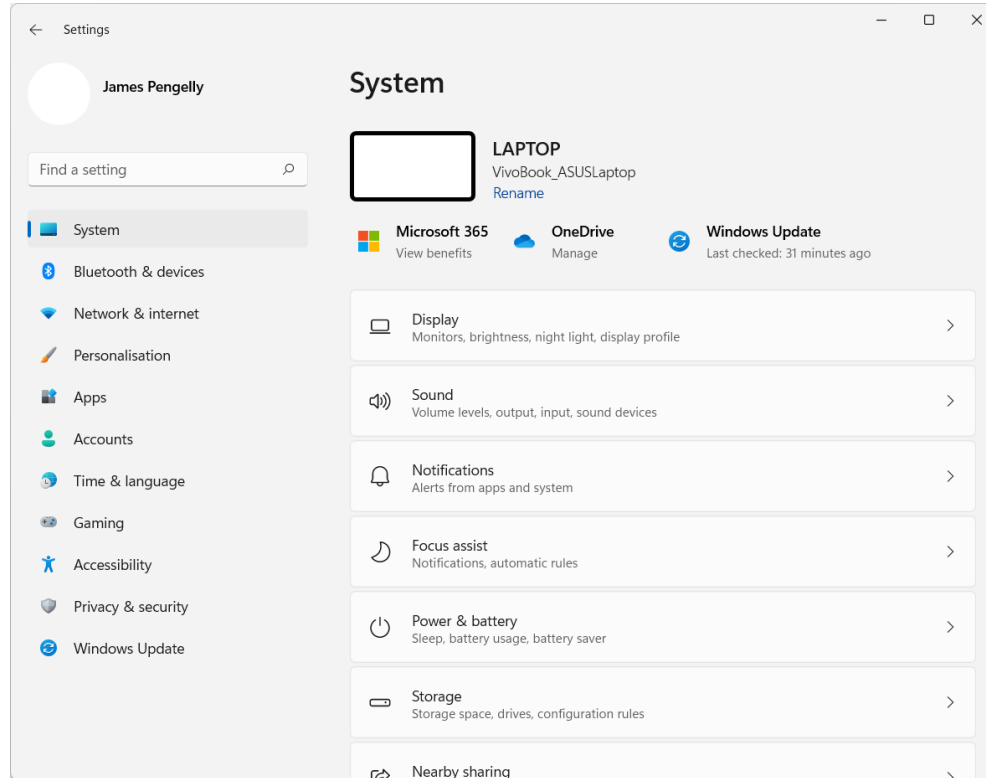

- Settings
 - A touch-enabled modern interface
- Control Panel
 - A legacy interface using applets to navigate to various settings menus

Windows Settings and Control Panel (Slide 2 of 4)

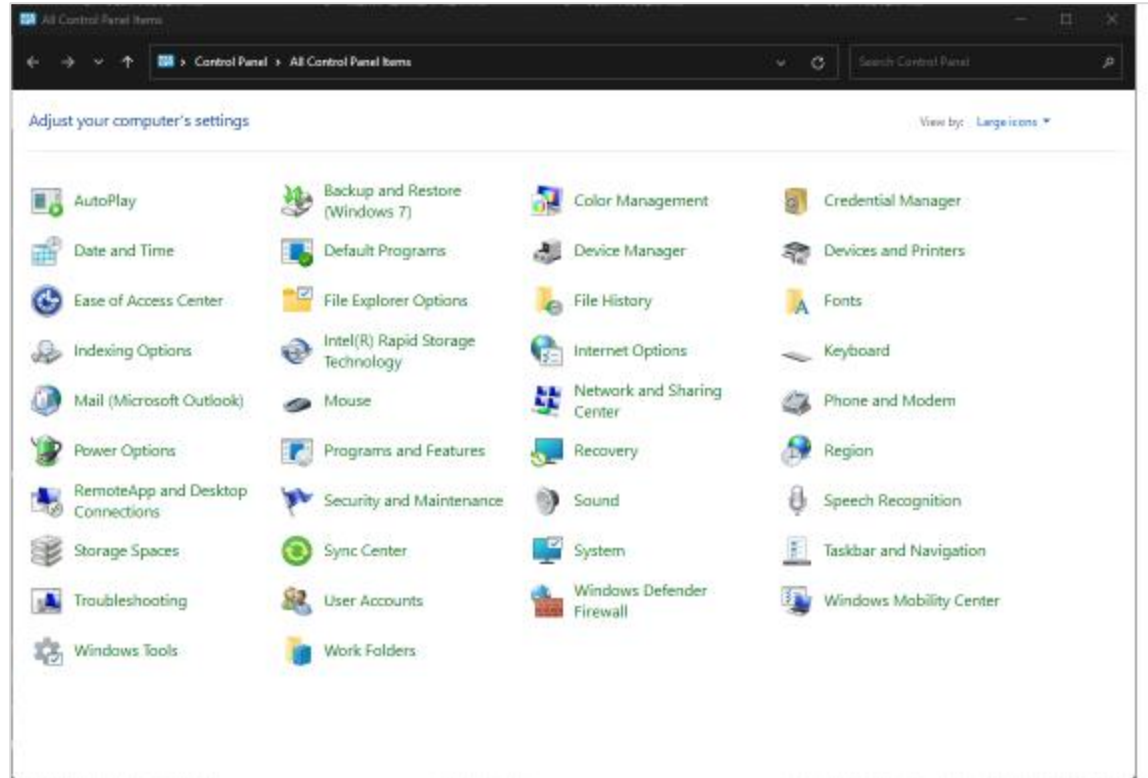

Screenshot courtesy of Microsoft.

Windows Settings and Control Panel (Slide 3 of 4)

Screenshot courtesy of Microsoft.

Windows Settings and Control Panel (Slide 4 of 4)

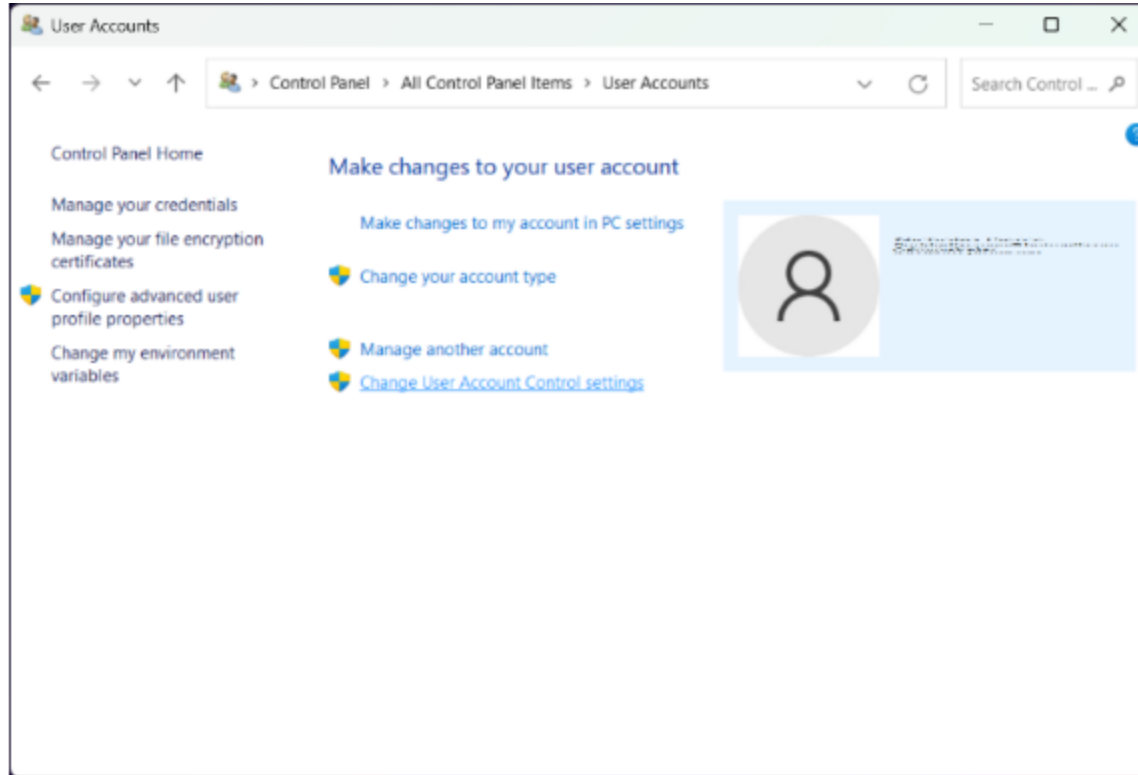

Screenshot courtesy of Microsoft.

Accounts Settings (Slide 1 of 2)

- Profile
 - The settings and configuration for a specific user
- Microsoft account vs. local account
- UAC settings
 - Prevent unauthorized use of administrative privileges

Accounts Settings (Slide 2 of 2)

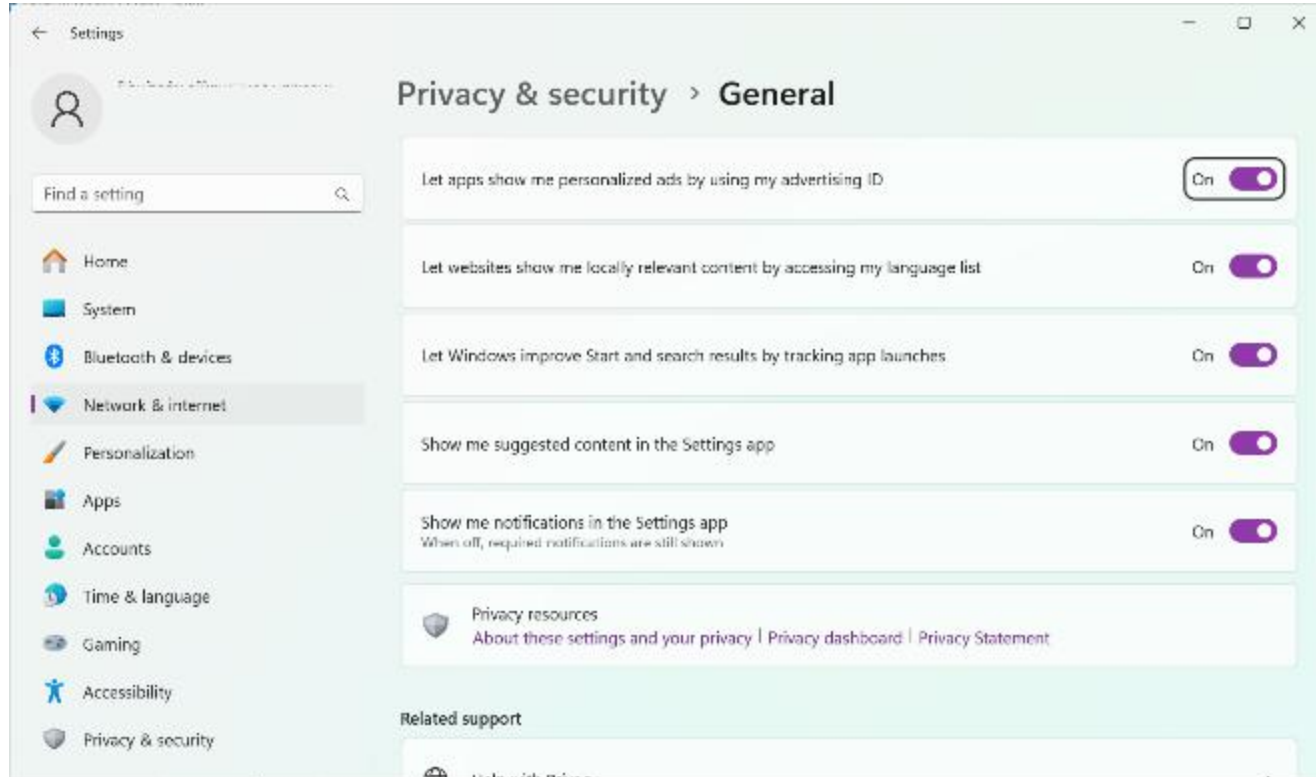

Screenshot courtesy of Microsoft.

Privacy Settings (Slide 1 of 2)

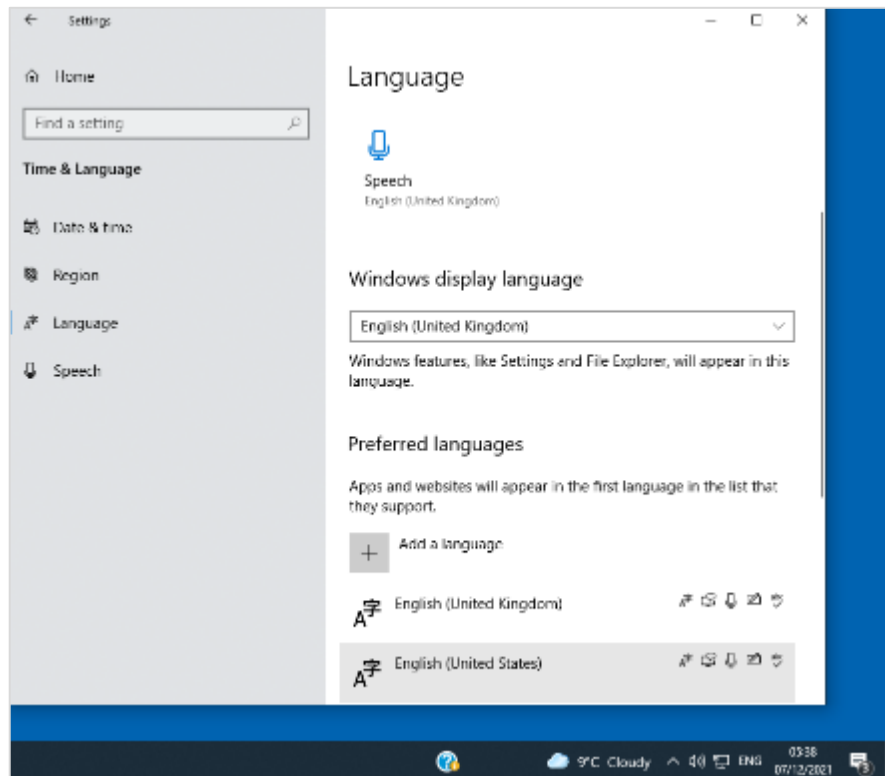

- Data collection default opt-in option for Microsoft
- Optional for data sharing
 - Contacts
 - Calendar
 - Email
 - Files

Privacy Settings (Slide 2 of 2)

Screenshot courtesy of Microsoft.

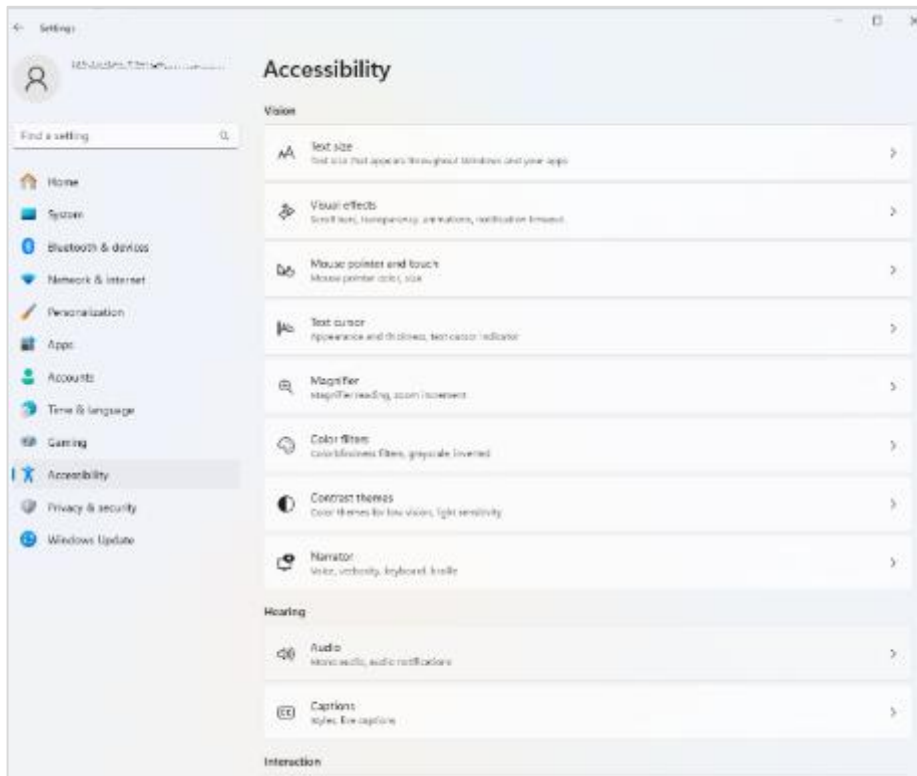

Desktop Settings

Screenshot courtesy of Microsoft.

- Time
 - Date/time format and time zone
- Language
 - Spelling and localization, keyboard input, and speech recognition
- Personalization settings
 - Themes, wallpaper, screensaver, color scheme, and font

Ease of Access Settings

Screenshot courtesy of Microsoft.

- Vision
 - Cursor indicators, high-contrast and color-filter modes, and magnifier
- Hearing
 - Volume, mixing, visual notifications, and closed-captioning
- Interaction
 - Keyboard and mouse options, speech and eye-controlled input

File Explorer (Slide 1 of 3)

File management via GUI

System objects

User account

OneDrive

This PC

Network

Recycle Bin

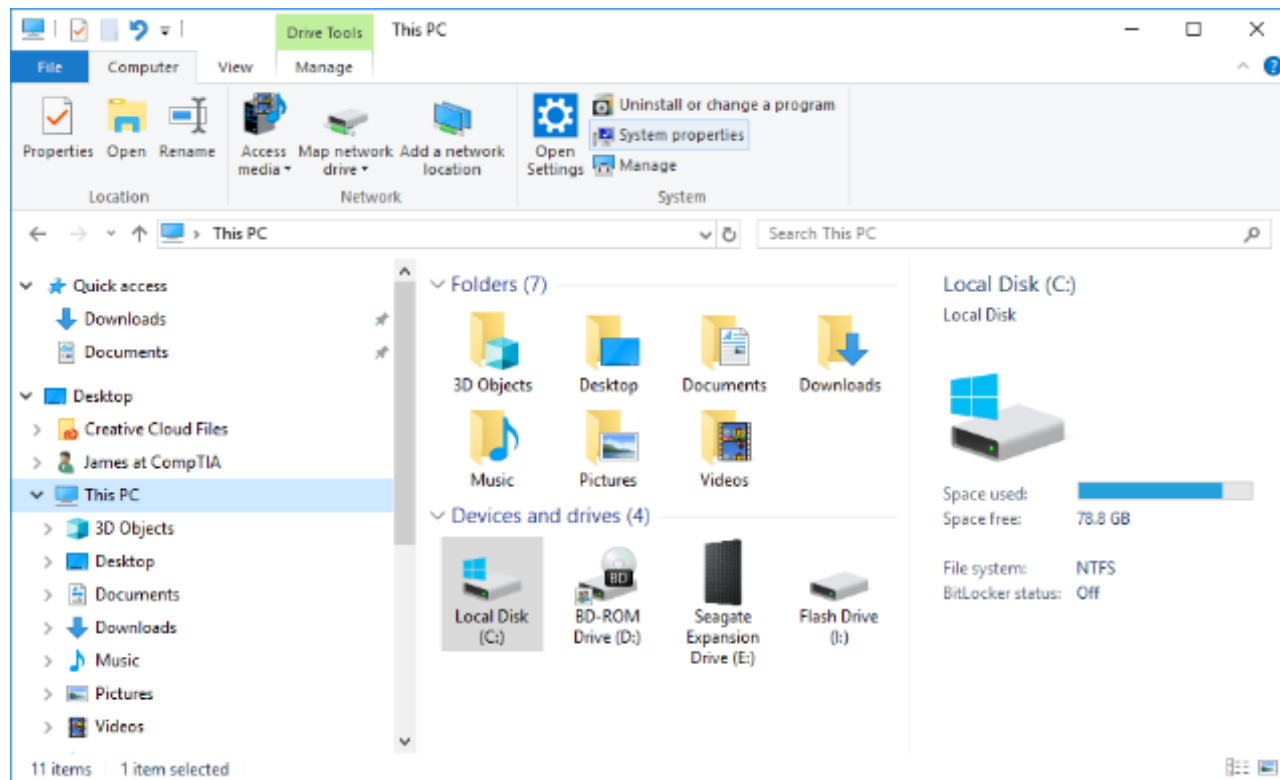

Drives and folders

System files

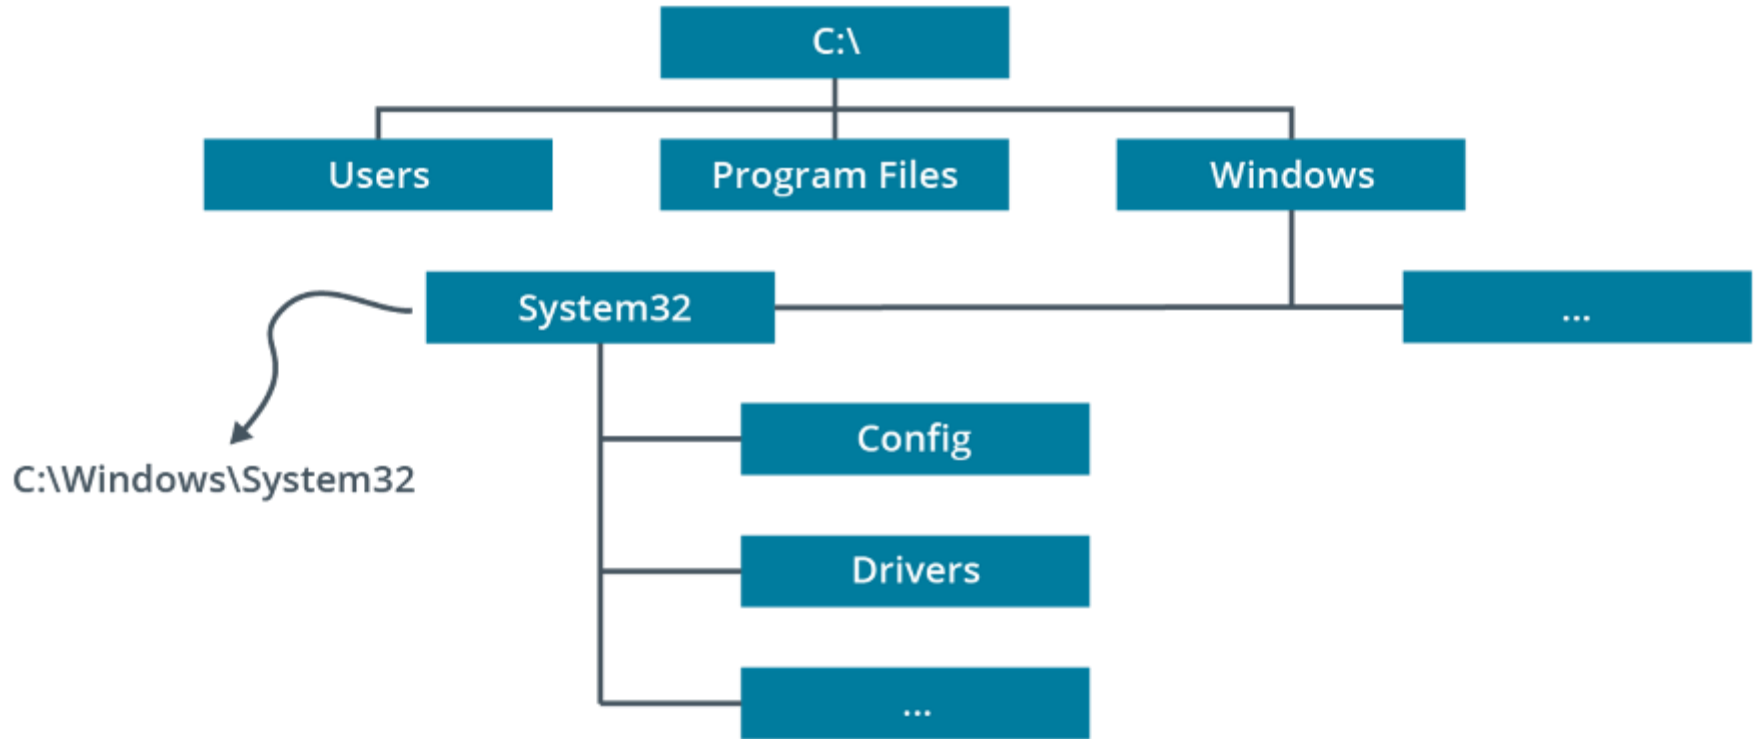

Windows, Program Files/Program Files (x86), and users

File Explorer (Slide 2 of 3)

Screenshot courtesy of Microsoft.

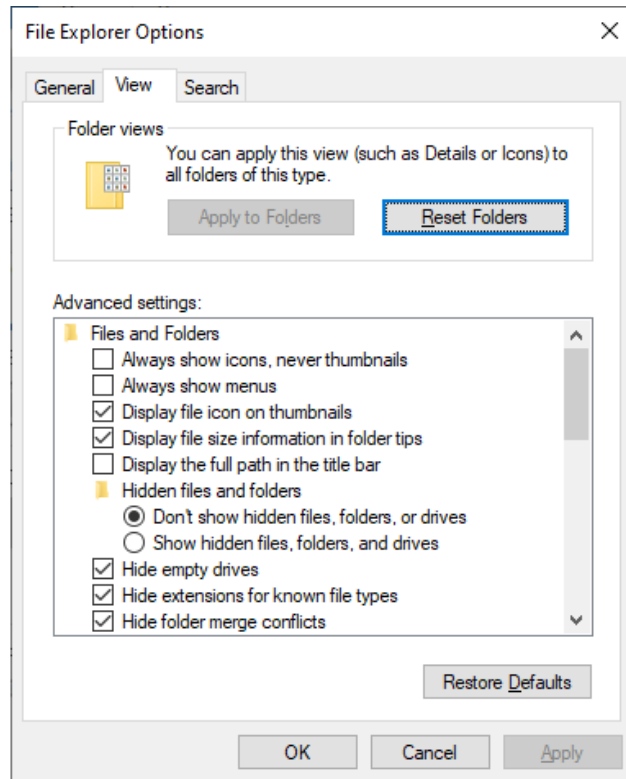

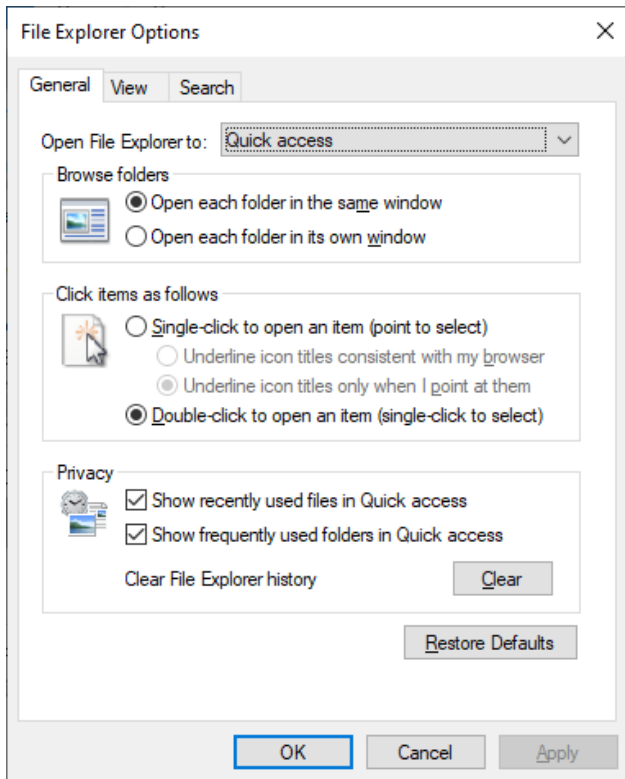

File Explorer (Slide 3 of 3)

File Explorer Options (Slide 1 of 2)

- General tab
 - Layout
 - Single vs. double-click interactions
- View tab
 - Hide extensions
 - Hide files and folders
 - Hide protected OS files
 - Default folder
 - Search options and behaviors

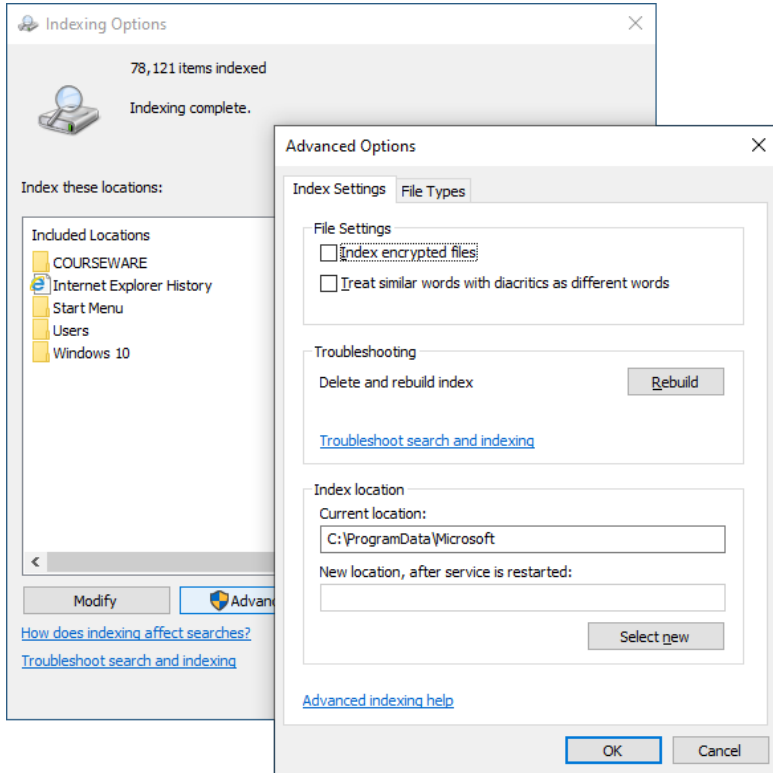

File Explorer Options (Slide 2 of 2)

Screenshot courtesy of Microsoft.

Indexing Options

- Sorts and categorizes data within the system
- Makes searching system faster

Screenshot courtesy of Microsoft.

Lab Activity

- Lab: Explore Windows Settings
(available in CertMaster Learn and CertMaster Perform)
- Lab: Require a Screen Saver Password
(available in CertMaster Learn and CertMaster Perform)
- Applied Live Lab: Configure Desktop Settings
(available in CertMaster Perform and CertMaster Labs)

Lesson Review: Windows User Settings

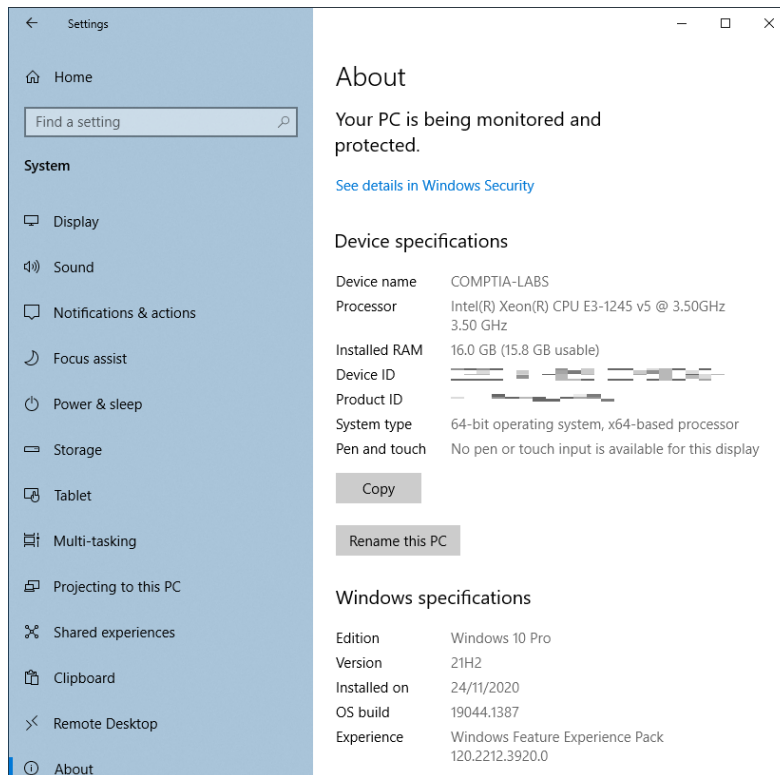

- Windows Interfaces
- Windows Settings and Control Panel
- Accounts Settings
- Privacy Settings
- Desktop Settings
- Ease of Access Settings
- File Explorer
- File Explorer Options
- Indexing Options

Lesson 12.2

Windows System Settings

System Settings

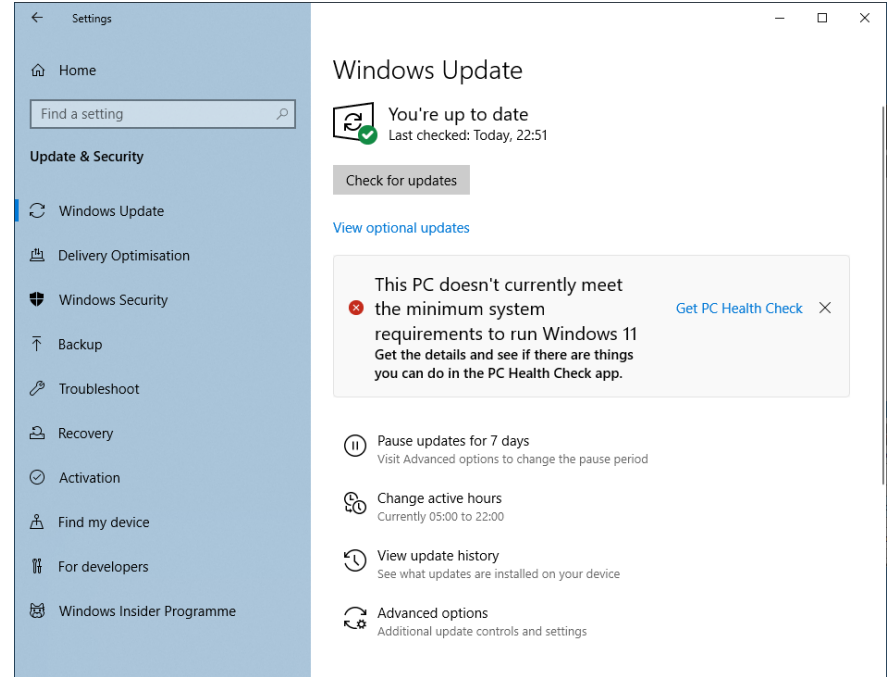

- Input/output devices
- Power
- Remote desktop
- Notifications
- Clipboard
- About

Screenshot courtesy of Microsoft.

Update and Security Settings

- Update
 - Updates OS and associated Microsoft products (ex: Office) and hardware drivers
- Patch
 - Minor fix for issue in program or OS code
- Security
 - Includes Windows Defender antivirus, threat protection, and firewall
- Activation
 - Activates product with Microsoft for anti-piracy

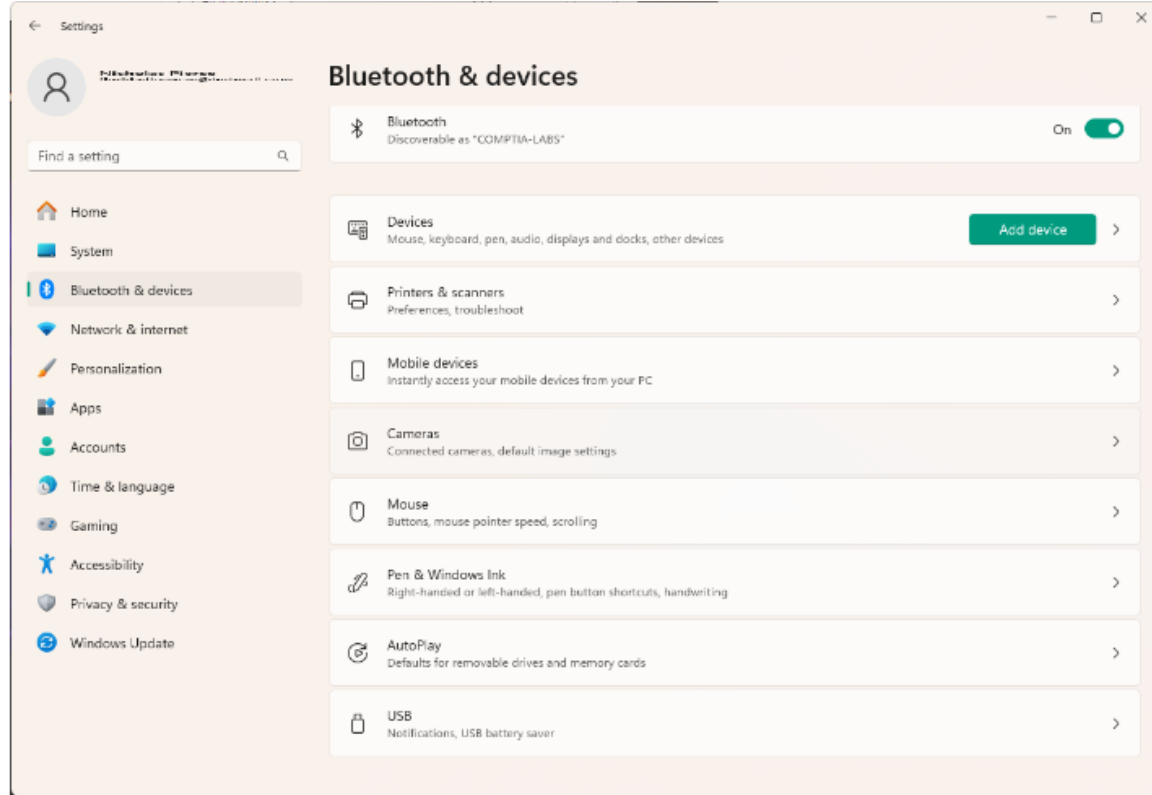

Screenshot courtesy of Microsoft.

Device Settings (Slide 1 of 3)

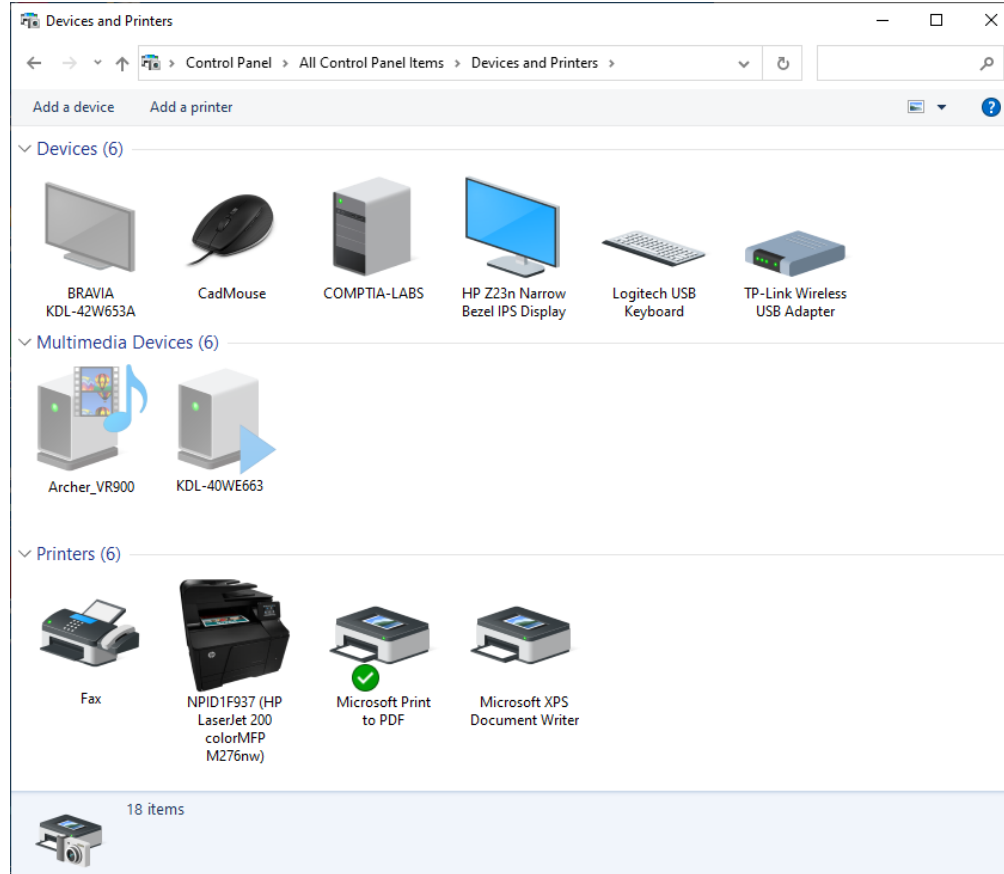

- System settings
 - Display and sound
- Bluetooth & devices
 - Input and output devices with Bluetooth or USB connectivity
- Mobile devices
 - Smartphone device management
- Devices and printers (Control Panel)
 - Manually add devices

Device Settings (Slide 2 of 3)

Screenshot courtesy of Microsoft.

Device Settings (Slide 3 of 3)

Screenshot courtesy of Microsoft.

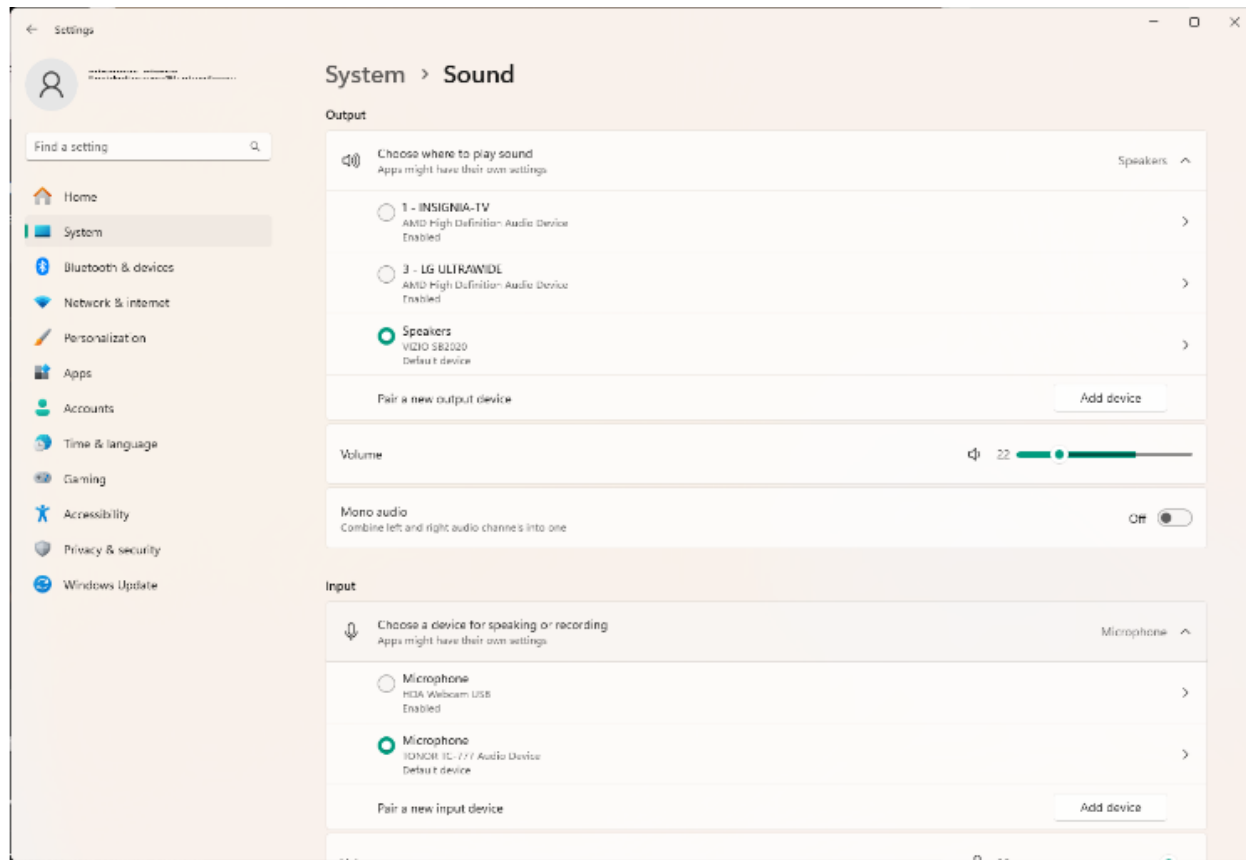

Display and Sound Settings (Slide 1 of 3)

- Scale
 - Changes size proportions for large screens
- Color
 - Changes monitor calibration for color matching
- Multiple displays
 - Set up multiple screens and/or projector configuration

Display and Sound Settings (Slide 2 of 3)

- Resolution and refresh rate
 - Resolution
 - Pixel by pixel
 - Refresh rate
 - Speed of entire display refresh
 - Expressed in Hz
- Sound
 - Output and input device selection
 - Level adjustment

Display and Sound Settings (Slide 3 of 3)

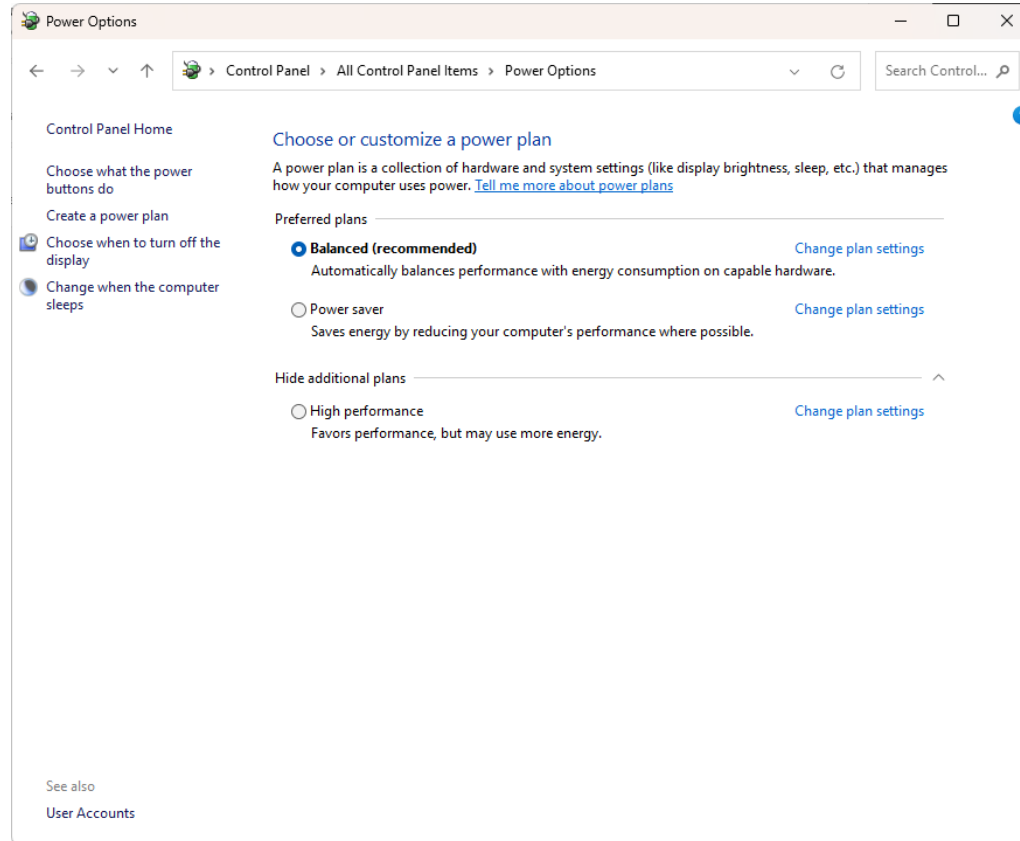

Screenshot courtesy of Microsoft.

Power Options (Slide 1 of 2)

- Standby/suspend
 - Removes power to most devices but maintains power to memory (RAM)
- Hibernate/suspend
 - Removes power from all components
 - Saves memory data to disk
- Power options
 - Change power button functionality
 - Power saver
 - Balanced
 - High performance

Power Options (Slide 2 of 2)

Screenshot courtesy of Microsoft.

Apps, Programs, and Features

Features

- Windows components of the OS that may be enabled/disabled

Store apps

- Run in restricted sandbox to prevent system-wide changes
- Do not require admin privileges

Windows Subsystem for Linux (WSL)

- Installation of Linux distribution without using a virtual machine

Lesson Review: Apps Settings (Slide 1 of 2)

Menu to view and uninstall applications and Windows features

Configure default apps

Auto-startup apps

Programs and Features

Legacy interface

Mail

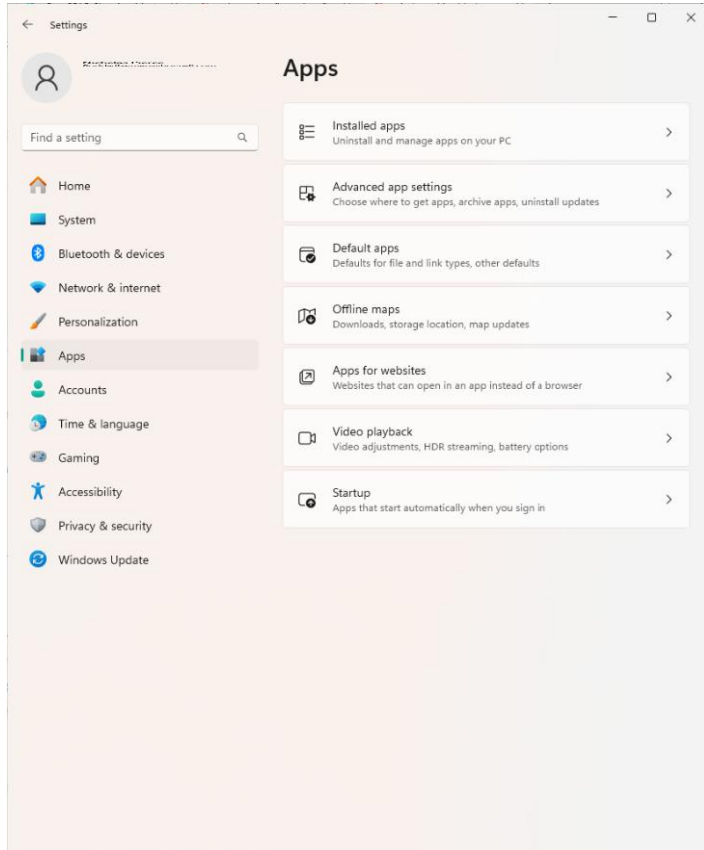

Manage mail accounts for Microsoft Outlook

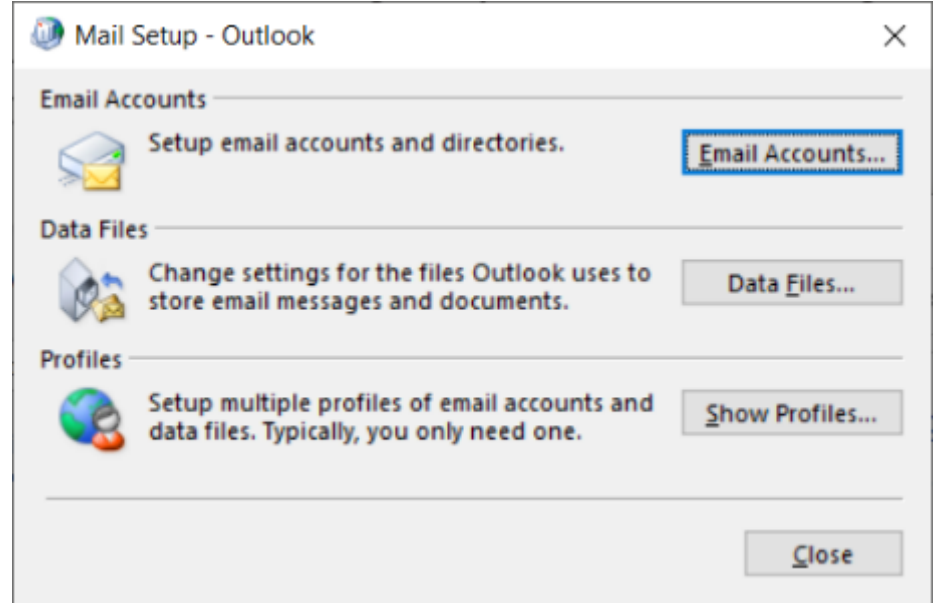

Gaming for game mode on/off

Suspends Windows updates and improves 3-D performance and frame rate for graphics

Apps Settings (Slide 2 of 2)

Screenshot courtesy of Microsoft.

Screenshot courtesy of Microsoft.

Network Settings (Slide 1 of 2)

Network

Network and Internet Settings

- Network status, IP properties, and other tools

Network

Network Connections

- Change IP properties of network adapters

Use

Use Network and Sharing Center

- See status information

Network Settings (Slide 2 of 2)

Advanced sharing

Configure network discovery options and file/printer sharing

Windows Defender Firewall

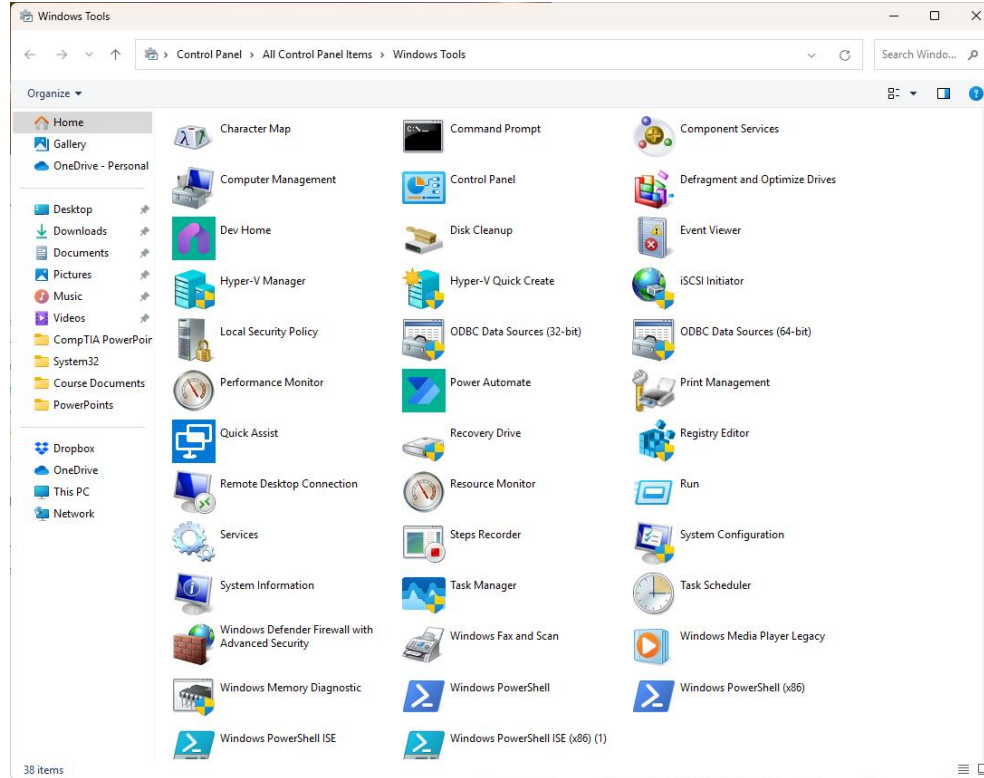

Internet options

System-wide web browser settings

Administrative Tools (Slide 1 of 3)

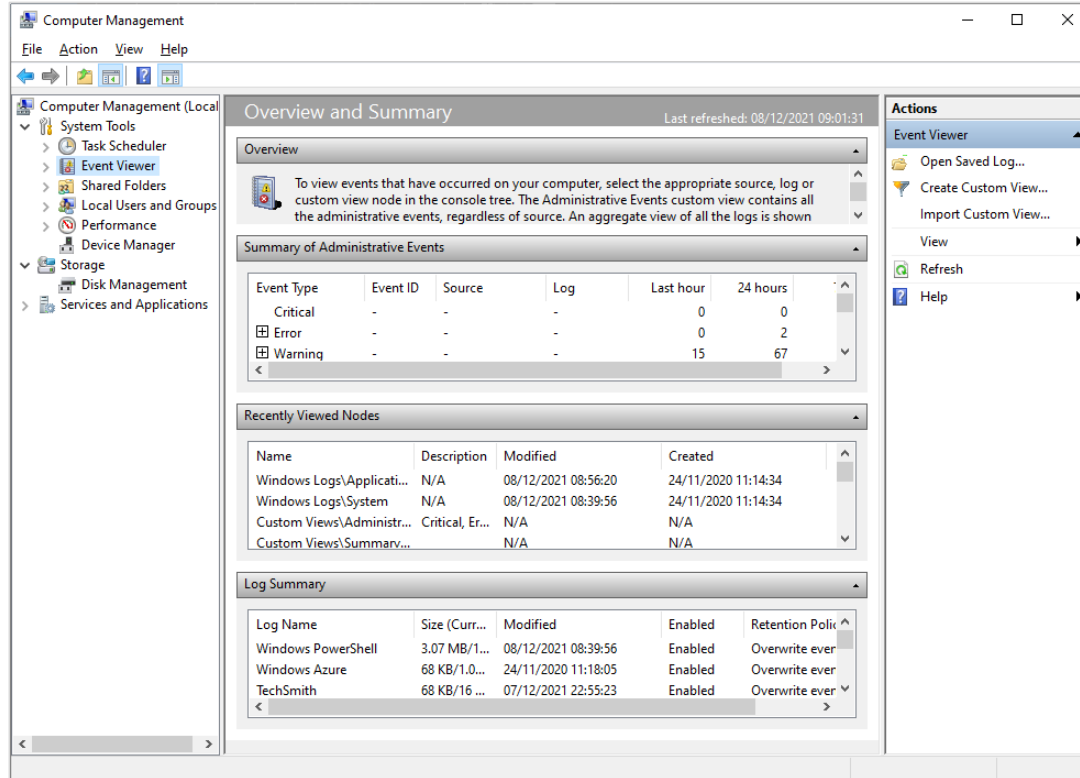

- Computer Management (compmgmt.msc)
- Defragment and Optimize Drives (dfrgui.exe)
- Disk Cleanup (cleanmgr.exe)
- Event Viewer (eventvwr.msc)
- Local Security Policy (secpol.msc)
- Resource Monitor (resmon.exe)
- Performance Monitoring (perfmon.msc)
- Registry Editor (regedit.exe)
- Services console (services.msc)
- Task Scheduler (taskschd.msc)

Administrative Tools (Slide 2 of 3)

Screenshot courtesy of Microsoft.

Administrative Tools (Slide 3 of 3)

Screenshot courtesy of Microsoft.

Management Shortcuts (Slide 1 of 3)

The diagram consists of four identical light blue rounded rectangular boxes arranged horizontally. Each box has a darker blue rectangular tab on its top-left corner. The text is centered within each box.

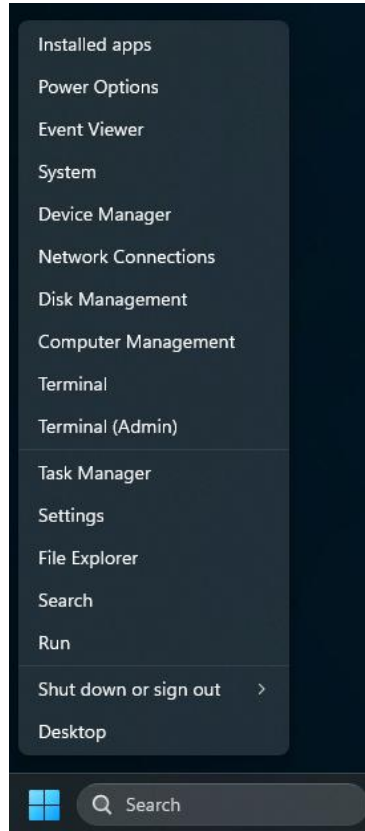

Windows +
X

Right-click
start button

Instant
search

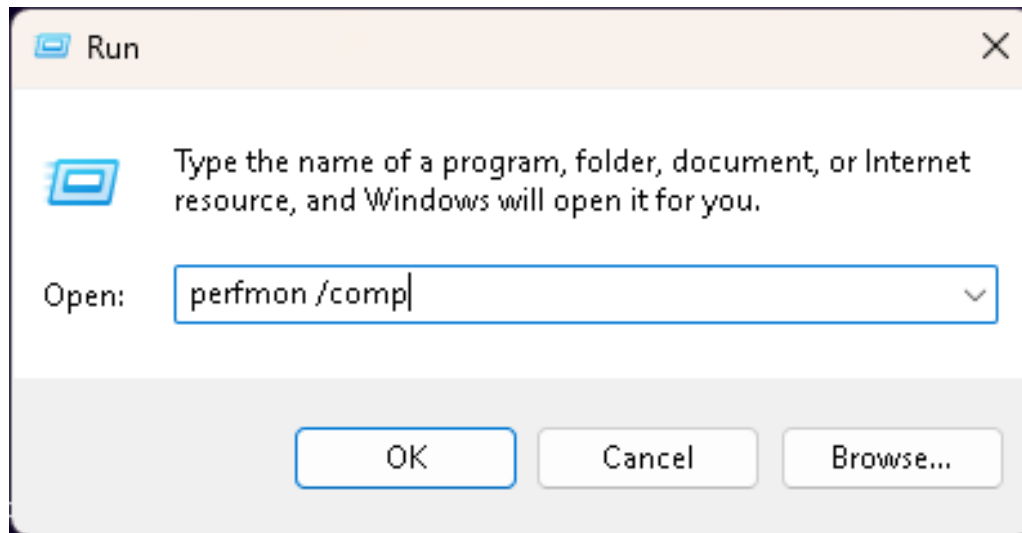

Run dialog
box

Management Shortcuts (Slide 2 of 3)

Screenshot courtesy of Microsoft.

Management Shortcuts (Slide 3 of 3)

Screenshot courtesy of Microsoft.

Lab Activity

- Lab: Configure Windows Update
(available in CertMaster Learn and CertMaster Perform)
- Lab: Edit Power Options
(available in CertMaster Learn and CertMaster Perform)

Lesson Review: Windows System Settings

- System Settings
- Update and Security Settings
- Device Settings
- Display and Sound Settings
- Power Options
- Apps, Programs, and Features
- Apps Settings
- Network Settings
- Administrative Tools
- Management Shortcuts

Lesson 12.3

Install and Configure Applications

Lesson Review: System Requirements for Applications (Slide 1 of 2)

CPU

Clock speed, number of cores,
architecture

Memory

Speed and minimum requirements

Storage

Minimum storage

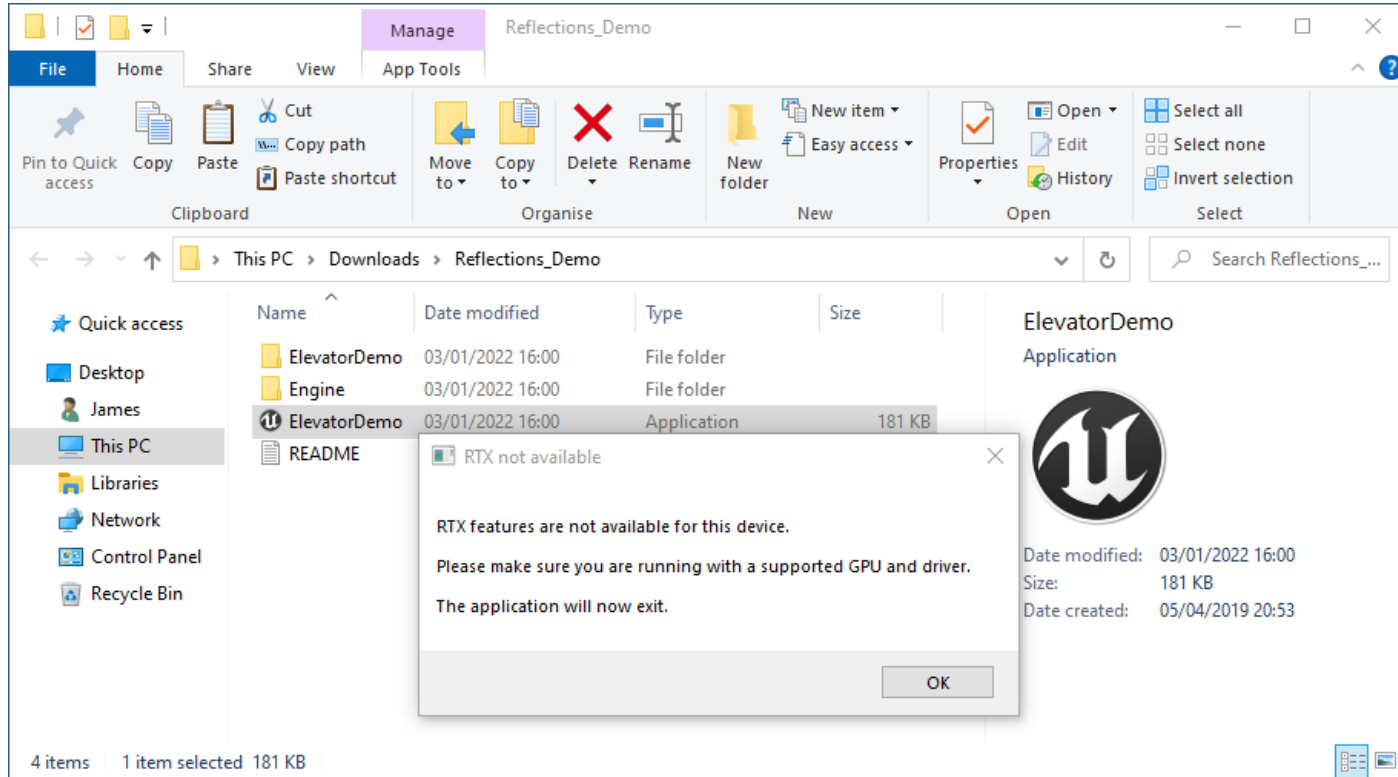

Graphics

External hardware token

Smart card or USB for authentication

System Requirements for Applications (Slide 2 of 2)

Screenshot courtesy of Microsoft.

OS Requirements for Applications

OS
compatibility

64-bit vs. 32-
bit

Distribution Methods (Slide 1 of 2)

Physical media

CD/DVD
USB drive

Download from the Internet

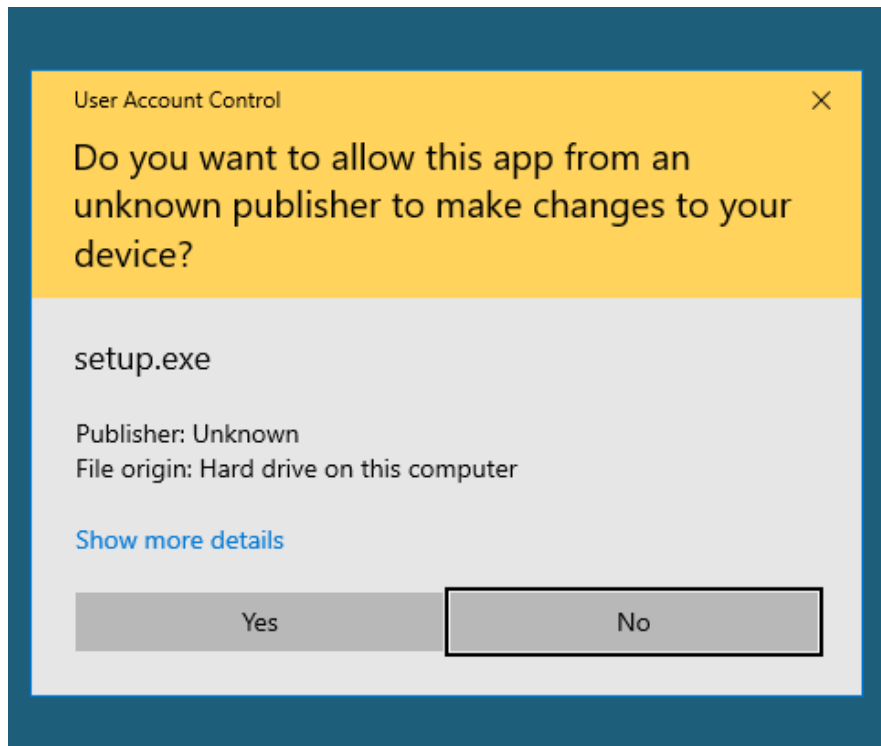

Mount ISO file directly in Windows

UAC confirmation of changes

Distribution Methods (Slide 2 of 2)

Screenshot courtesy of Microsoft.

Other Considerations

Business impacts

- Licensing, support, training needs

Operation impacts

- Deployment, updating, maintenance

Device and network impacts

- Use of limited local system resources
- Use of network resources and bandwidth

Lab Activity

- Applied Live Lab: Configure Windows Apps
(available in CertMaster Perform and CertMaster Labs)

Lesson Review: Install and Configure Applications

- System Requirements for Applications
- OS Requirements for Applications
- Distribution Methods
- Other Considerations

Lesson 12.4

Cloud-Based Applications

Email Systems

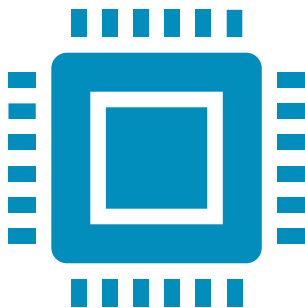

OUTLOOK WEB IN
MICROSOFT 365

GMAIL IN GOOGLE
WORKSPACE

Storage (Slide 1 of 2)

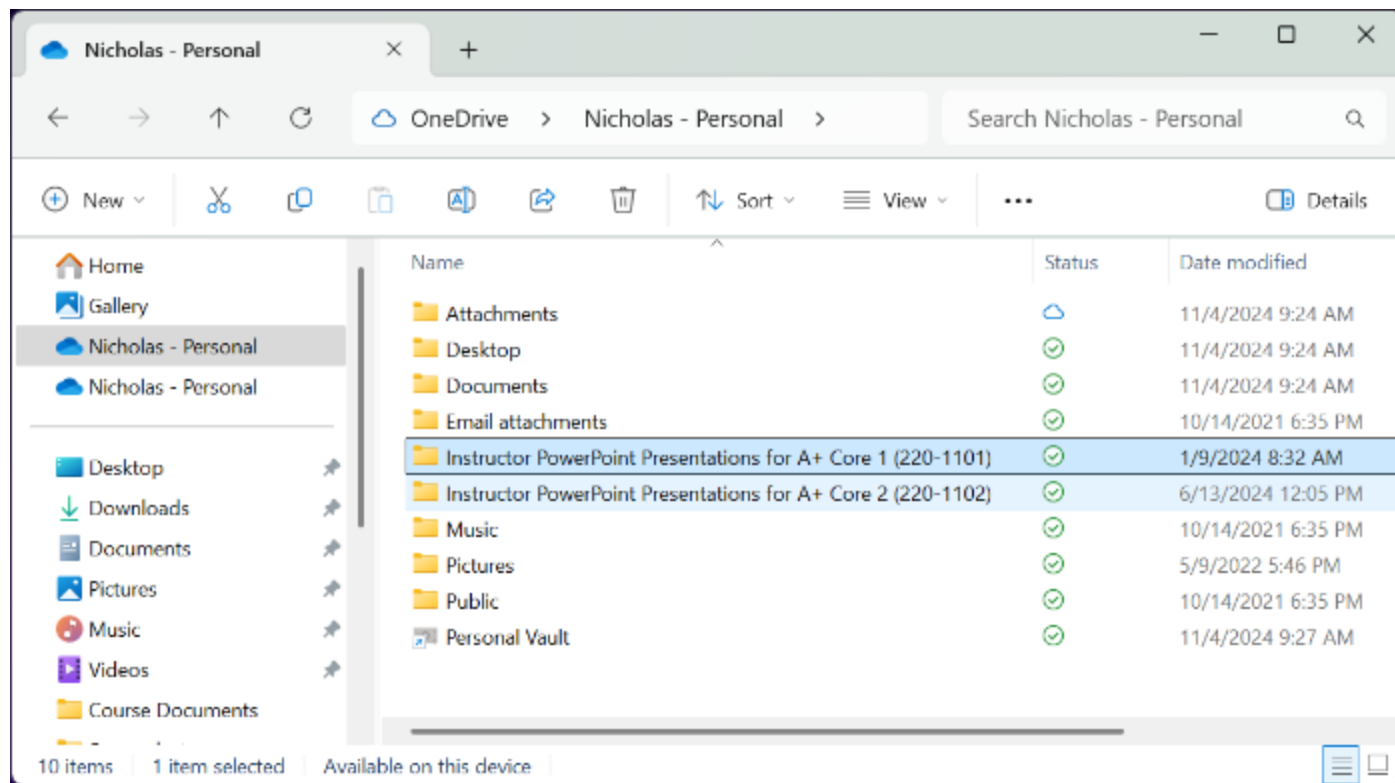

OneDrive, Google Drive, Apple
iCloud

Data storage and synchronization
across multiple platforms

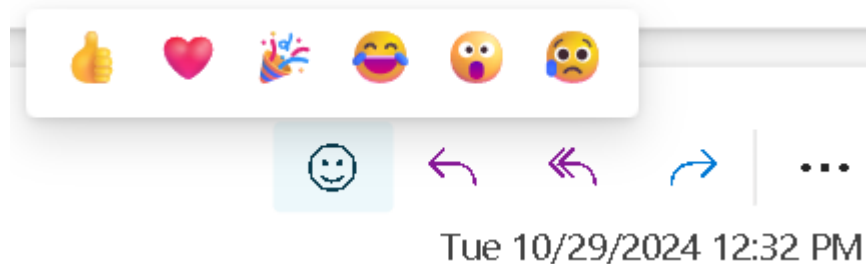

Storage (Slide 2 of 2)

Screenshot courtesy of Microsoft.

Collaboration Tools

- Documents
 - Office 365 or GoogleDocs and Slides
 - Multiple users with simultaneous access and editing capability
 - Changes synchronize in near real-time with tracking
- Videoconferencing
 - Video, audio, and text-based chat features
 - Zoom, Slack, Teams

Screenshot courtesy of Microsoft.

User Licensing (Slide 1 of 2)

Licensing terms

Personal vs. commercial use

Multi-user access

Enterprise management

Admin portal for issuing licenses to
individual accounts

User Licensing (Slide 2 of 2)

Microsoft Entra admin center

Search resources, services, and docs (G+/)

qjensen@fabrikan.com
Fabrikan

New support request

Select licenses

- ☐ Azure Active Directory Premium P1
- ☒ Enterprise Mobility + Security E3
- ☐ Microsoft Azure Active Directory Standard
- ☐ Microsoft Azure Multi-Factor Authentication
- ☐ Office 365 E1
- ☒ Office 365 E3
- ☐ Power BI (free)
- ☒ Rights Management Adhoc

Review license options

Select

Enterprise Mobility + Security E3

- ☒ Cloud App Security Discovery
- ☒ Azure Information Protection Premium P1
- ☒ Microsoft Intune
- ☒ Azure Rights Management
- ☒ Azure Active Directory Premium P1
- ☒ Microsoft Azure Multi-Factor Authentication

Office 365 E3

- ☒ TEAMS_GCCHIGH
- ☒ To-Do (Plan 2)
- ☒ Microsoft Forms (Plan E3)
- ☒ Microsoft Stream for O365 E3 SKU
- ☒ Microsoft StaffHub

Screenshot courtesy of Microsoft.

Identity Synchronization (Slide 1 of 2)

Cloud identity
account

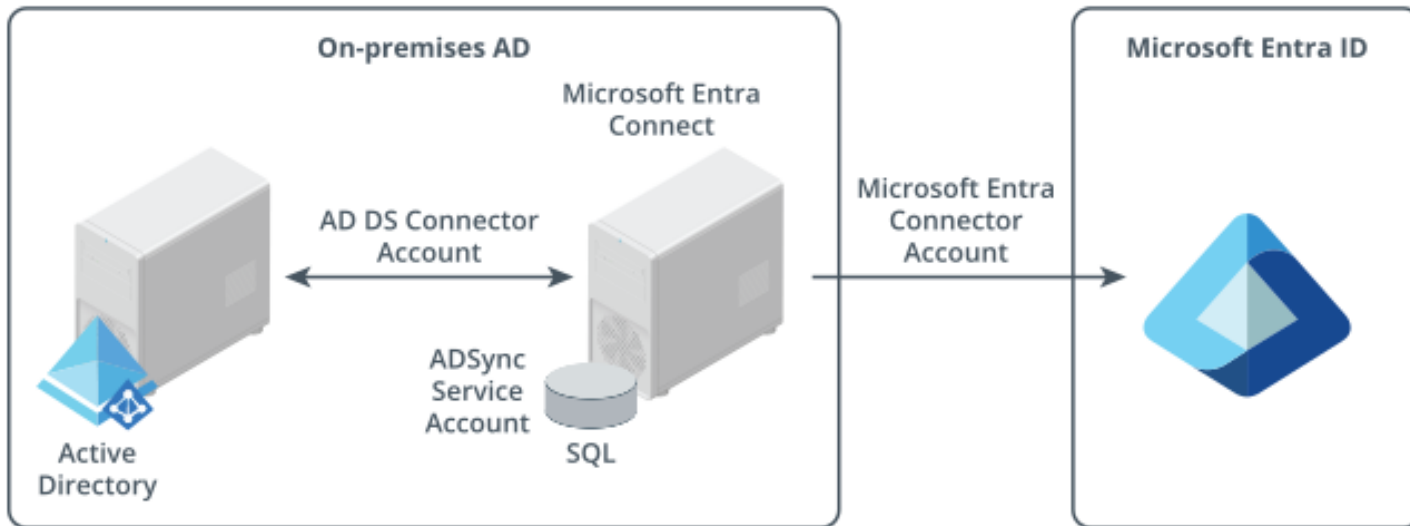

- Used across platforms and applications

Single account

- Used to access multiple applications

Used for federated
access or single sign-
on configurations

Identity Synchronization (Slide 2 of 2)

Screenshot courtesy of Microsoft.

Lab Activity

- Lab: Create Azure Storage Account
(available in CertMaster Learn and CertMaster Perform)

Lesson Review: Cloud-Based Applications

- Email Systems
- Storage
- Collaboration Tools
- User Licensing
- Identity Synchronization
